Dear Vietnamese-American Voters,

On Sunday, March 8, 2015, at the Candidate Forum for District 4, organized by the Vietnamese American Voters Political Action Committee (Viet-Voters PAC), our community had an opportunity to discuss many topics with two of the four Vietnamese-American candidates: Mr. Manh Nguyen and Mr. Khoa Nguyen.

The Viet-Voters PAC is very impressed with Mr. Khoa Nguyen for his independence, candidness and thoughtfulness as well as his breadth of expertise. With the many challenges facing our city, we believe Mr. Khoa Nguyen is the best person to represent the people of District 4. As a school board member of the Berryessa Union School District, Mr. Khoa Nguyen has shown his leadership in developing educational policies leading to successes in many neighborhood schools. We believe that if he is elected to the San Jose City Council, he will create partnerships with school districts that will greatly improve the quality of our schools. As the only police officer among the candidates, Mr. Khoa Nguyen has the first-hand knowledge and insight to address our public safety issues. We believe in his ability to work to prioritize the safety of our community and rebuild the relationship with our police department to better protect our community. With a formal education in Business Finance and Business Administration and several years of industry experience in managing multi-million dollar budgets at both Lockheed Martin and Cisco Systems, Mr. Khoa Nguyen has the necessary experience to be fiscally responsible and to ensure that our tax dollars will be spent wisely for education, public safety, and economic development.

Mr. Khoa Nguyen was born and raised in the United States of immigrant parents. He has a deep connection to his roots and takes a strong stand on the issue of human rights violations and freedom and democracy for Vietnam.

The Viet-Voters PAC proudly endorses Mr. Khoa Nguyen for San Jose City Council District 4. We ask all voters in District 4 to vote for Khoa Nguyen in the election on April 7.

Sincerely,

Dr. My Phuong Le
